About Us

The HTA works with garden retailers, growers of ornamental and forestry crops, manufacturers and suppliers, landscapers and service providers in the UK.

We promote, support and nurture our industry to ensure a robust and sustainable future. We do this through representation of members' interests to government and media, run the National Garden Gift Voucher Scheme through retailers and help members develop their businesses through first-class advice and technical support.

No matter the size or location of your business, if you're part of the growing, amenity and landscaping industry, you need to be part of the association that represents it.
